Allowable Subject Matter

1. Claims 14 & 17-29 are allowed. The following is an Examiner's statement of reasons for allowance: Claims 14 & 17-29 are considered allowable since no prior art reference or combination of prior art reference alone or in combination disclose or suggest the combination of limitations specified in the independent claims including:

“generating power control message, based on the comparison to be used by the single remote station to independently adjust transmitted powers of more than one of said plurality of subchannel signal to different levels” in combination with other claim limitations of the specified independent claim 14.

“message generator configured to generate power control message, based on the comparison by the single remote station to independently adjust transmit power of more than one of the plurality of subchannel signal to different levels” in combination with other claim limitations of the specified independent claim 21.

“means for generating power control message based on the comparison to be used by the single remote station to independently adjust transmit powers of more than one of the plurality of subchannel signal to different levels” in combination with other claim limitations of the specified independent claim 25.

“a message generator to configured to generate power control message, based on the comparison, to be used by the single remote station to independently adjust transmit power than one of the plurality of subchannel signal to different levels” in combination with other claim limitations as specified in the independent claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
